Medical Billing Solution

10+

Certified Billing Specialists

48+

Happy Customers & Companies

Billing Specialists

You get a dedicated accounts manager and benefit from our case management team with a combined 18 years billing experience.

Integration & Validation

Our user friendly Software simplifies billing, has integrated coding, allows real time patient benefit check, real time feedback on claim submissions to help get paid faster. Provides accounting and financial management reporting.

Debt Collection & Follow-Ups

We have a skilled debt collection team that works out payment plans with debtors to ensure our practices get what is due to them. We also do constant follow ups to make sure all monies are collected for our clients.

Benefits

Improved Financial Control, Reduce Medical Aid Rejections, No Administration Hassles, Online Access, Get Paid Faster With Electronic Data Interchange.

Medical Billing Solution

We Are Medprex Registered

What it means for your practice.

Pharmaceutical Product and Price File

Weekly drug file price updates to ensure that the price we submit to medical aids is valid and wont be short paid. This reduces rejection of claims and saves time for accounting adjustments.

Medical Scheme Data

Latest medical scheme rules and remarks to inform you when a certain medical aid will only cover 80% of a consultation fee

To ensure the correct scheme name and scheme codes are valid for electronic invoicing and for medical aid claims to reach the intended destination the first time.

Medprax Electronic Script Generator

Allows our clients to generate an electronic script for patients, compare drug prices, add ICD10 codes, save and edit chronic repeat scripts.

Value Added Services

We are one of the very few **bureau's** that goes an extra mile by offering more than just medical billing to our clients, we also make sure that your practice is tax compliant and offer accounting services inclusive of your billing rate.

Our **holistic approach** not only takes away the **stressful billing admin work** but also provides a **stress free** financial operation for your practice.

Compliance

Essentially, the purpose of the Protection of Personal Information Act (POPIA) is to protect people from harm by protecting their personal information. To stop their money being stolen, to stop their identity being stolen, and generally to protect their privacy, which is a fundamental human right.

To achieve this, the Protection of Personal Information Act sets conditions for when it is lawful for someone to process someone else's personal information.

Compliance

Lets Get You Registered.

Practice Medical Aid Registration

We follow the correct and rightful process into getting your medical practice registered with all major medical bodies, schemes and administrators, so it easy for the practice to start claiming for patient care on medical scheme rates.

B·H·F Southern Africa

PCNS Practice Code Numbering System

HPCSA Health Professions Council of South Africa

Collaborations

Microsoft Azure

Patient data is safely secured and 100% guaranteed up-keep time.
